

ALINA KIPTENKO

Full-Stack Software Engineer | Cloud & AI-Integrated Applications

alinakip20@gmail.com | (464) 204-5881 | Miami, FL

[linkedin.com/in/alina-kiptenko](https://www.linkedin.com/in/alina-kiptenko) | github.com/Alina201998 | alina201998.github.io

PROFESSIONAL SUMMARY

Full-Stack Software Engineer who ships independently — built an AI tool on the OpenAI API with a React/Node.js stack, and migrated a Python application to Azure SQL Database with a pytest test suite. Former lawyer, now writing code with the same attention to detail.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, Python, SQL (T-SQL), C++, HTML/CSS
- **Cloud & Data:** Azure SQL Database, SQL Server, SQLite, pyodbc, Multi-Table JOINS
- **Testing:** pytest, automated test suites, input validation, edge-case testing
- **AI Tools & Workflow:** OpenAI API Integration, Prompt Engineering, ChatGPT, Claude (AI-assisted development)
- **Frontend/Backend:** React, Node.js, Express, REST APIs, Responsive Design, Vite
- **Tools & Concepts:** Git, GitHub, Android Studio, CRUD, Debugging, Agile/Scrum

PROJECTS

Polling Place Finder Desktop App — Python, Tkinter, Azure SQL Database, T-SQL, pytest

[GitHub: github.com/Alina201998/polling-place-finder](https://github.com/Alina201998/polling-place-finder) | [Demo](#)

- Migrated the application's database layer from on-prem SQL Server to Azure SQL Database, updating the pyodbc connection layer for cloud connectivity
- Refactored core logic for testability and built an automated pytest suite (5 tests) covering query accuracy and edge cases, eliminating inaccurate output
- Modernized the Tkinter GUI and queried polling location data via multi-table JOINS and T-SQL

LinkedIn Post Generator (AI/ML) — React, Node.js, Express, OpenAI API

[GitHub: github.com/Alina201998/linkedin-post-generator](https://github.com/Alina201998/linkedin-post-generator) | [Live Demo](#)

- Engineered a full-stack AI pipeline connecting a React frontend to a Node.js/Express backend through a REST API, turning a single input into 2-3 tailored post variations
- Iterated on prompt structure after early versions produced generic output — validated final quality through structured testing with multiple users, who rated results as usable with minimal editing
- Built the REST API layer to support multiple concurrent generation requests

Mood Tracker Android App — Java, Android Studio, SQLite, RecyclerView

[GitHub: github.com/Alina201998/Mood-Tracker-AndroidApp](https://github.com/Alina201998/Mood-Tracker-AndroidApp) | [Demo](#)

- Applied object-oriented programming principles in Java to build a full CRUD Android application
- Designed and executed test cases covering 7+ edge cases, eliminating crashes across every scenario tested

PROFESSIONAL EXPERIENCE

- **Legal Consultant/Advisor, EMERCOM (2021–2022):** Handled case files and incident records, ensuring legal accuracy and regulatory compliance
- **Front Desk Receptionist, Sport Plus / Prime SportClub (2019–2020):** Processed high-volume client billing and scheduling with zero errors

EDUCATION

Harold Washington College, City Colleges of Chicago — Jan 2023 – Dec 2025 | Chicago, IL

- ESL Program (Jan 2023 – 2024) → Advanced Certificate in Software Development (Aug 2024 – Dec 2025), GPA: 3.70/4.00
- Coursework: OOP (C++), Client-Server Databases (SQL), Web Development, SDLC

B.A. in Jurisprudence (Law), Rostov State University of Economics — Jul 2021 | Rostov-on-Don, Russia

Work authorization: Authorized to work in the U.S. (green card, no sponsorship required), willing to relocate. Languages: Russian (Native), English (Fluent).
